

BALLCAT™

Many-sided accessory for 100 Millions of Golfers

“Lose one ball and get many in return”

- **Unbeatable ball retriever** - in water hazards, even when you can't see the ball!
- **Your extended bunker rake**
- **Stores a couple of balls** easily accessible
- **Pulls the ball out of the thickest rough**

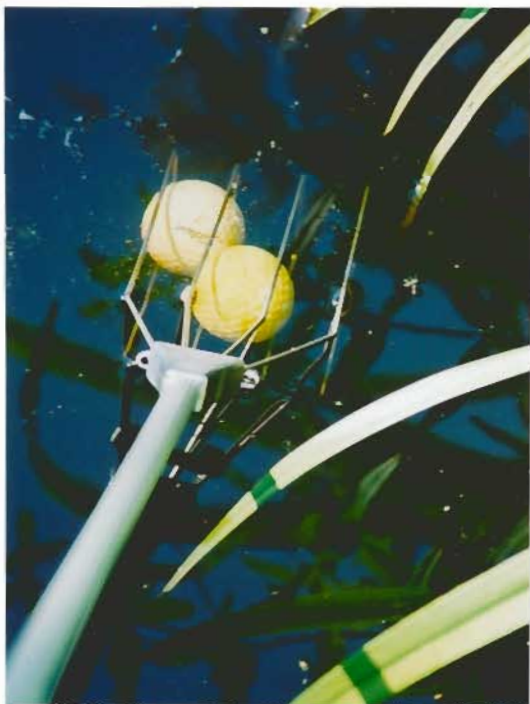

BALLCAT has four flexible fingers made of stainless spring-steel attached to a four-part telescopic aluminium handle (22x1 – 13x1) with a rubber grip. The minimum length is 112 cm (the same as a driver). Extended length = ca 330 cm. A movable clip brings the retrieving fingers together.

1. The ball doesn't need to be visually located
2. Catches many balls in one sweep
3. Many-sided use
4. The telescopic handle allows you to rake from a comfortable distance
5. Spatial shape. Ball retriever, rake and ball holder in one!
